**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 7 and 10-12 recite "**a second storage section** which stores image data for an object to be image processed" then a few lines down recite "an image processing section which grabs image data for an object to be image-processed from **said first storage section**". It is unclear as to which storage section, the first or the second, the applicant stores the image data for an object to be image processed. Therefore the above-mentioned claims are indefinite.

Claims 2-6 and 8-9 are rejected because they depend on rejected claims.
